

Birds of prey at library

JAMES BARRINGER/THE SALISBURY POST

David Garver of the Charlotte Raptor Center tells children at Rowan Public Library about the red-tailed hawk perched upon his hand. The presentation was part of the library's Summer Reading Program. Garver repeated the program for summer readers

today at First Methodist Church. The Summer Reading Program encourages children to continue reading at home during the weeks out of school. Those who join the program are invited to programs such as Garver's presentation on birds of prey.
